

INTERESTED IN BECOMING AN EMPLOYER?

Personal Assistance Services (PAS) Program

The PAS program works with those who qualify under Medicaid, Blue Cross of Idaho, Molina Healthcare or wish to private pay to receive personal care and/or homemaker services in their home. LINC's PAS program is a social support for independent living, allowing people to stay in their home and **self-direct** their personal care needs.

Participants in the PAS program:

- remain in their own home
- are the EMPLOYER! *They* do the hiring, training and scheduling of their personal assistant
- flexibility in creating your schedule to meet your needs
- make your decisions regarding your health care
- build your own plan of care with Medicaid and LINC staff
- have support from LINC staff to assist with your independent living goals

To see if you are qualified, please contact the PAS Program Educator at 208-336-3335.
